RE: Delete Delete Delete

To Whom It May Concern:

As someone who has worked in radio broadcasting for over 30 years, I suggest the following regulations be deleted or revised:

73.1125(e) - The rule requiring radio stations to have a local or toll free number in its city of license should be deleted. This rule is obsolete in the world of the cell phone.

73.3526(e)(12) or 73.3527(e)(8) - The Quarterly Issues and Programs List requirement should be deleted.

Also, the rule requiring a Silent STA after 30 days silence should be doubled to 60 days. This will give stations a longer period to correct the situation and will reduce the number of filings.
